- **We Are Not Financial Advisors or a Broker/Dealer:** Neither TheoTrade® nor any of its officers, employees, representatives, agents, or independent contractors are, in such capacities, licensed financial advisors, registered investment advisers, or registered broker-dealers. TheoTrade® does not provide investment or financial advice or make investment recommendations, nor is it in the business of transacting trades, nor does it direct client commodity accounts or give commodity trading advice tailored to any particular client's situation. Nothing contained in this communication constitutes a solicitation, recommendation, promotion, endorsement, or offer by TheoTrade® of any particular security, transaction, or investment.
- **Securities Used as Examples:** The security used in this example is used for illustrative purposes only. TheoTrade® is not recommending that you buy or sell this security. Past performance shown in examples may not be indicative of future performance.
- **Return on Investment "ROI" Examples:** The security used in this example is for illustrative purposes only. The calculation used to determine the return on investment "ROI" does not include the number of trades, commissions, or any other factors used to determine ROI. The ROI calculation measures the profitability of investment and, as such, there are alternate methods to calculate/express it. All information provided are for educational purposes only and does not imply, express, or guarantee future returns. Past performance shown in examples may not be indicative of future performance.
- **Investing Risk:** Trading securities can involve high risk and the loss of any funds invested. Investment information provided may not be appropriate for all investors and is provided without respect to individual investor financial sophistication, financial situation, investing time horizon, or risk tolerance.
- **Options Trading Risk:** Options trading is generally more complex than stock trading and may not be suitable for some investors. Granting options and some other options strategies can result in the loss of more than the original amount invested. Before trading options, a person should review the document Characteristics and Risks of Standardized Options, available from your broker or any exchange on which options are traded.

This is Why You Are Here!

1. Discover why Ultima Trades are ideal for the current market environment so you can potentially generate monthly income
2. Learn the trading symbol professionals use on a daily basis to create Ultima Trades!
3. Learn how and where you can find edge as a retail trader!
4. Reap the benefits of high probability trades while learning little known secrets to not taking large losses
5. Find which products make the most viable candidates and which products are a recipe for disaster.

I watched order flow for 15 years... that's why I am here

- I grew up around traders and started trading in the late 90's.
- I went on to work with thinkorswim and TD Ameritrade from 2001 to 2015.
- In that time, I built and ran education for both firms, more importantly had access to the largest retail order flow in the industry.
- What's watching order flow? Well... that means I had access to everything you did.
- We studied trades and we know what works and what does not.
- What you learn here comes from watching billions in others mistakes and the knowledge of what works best for retail traders.

Wringing Profits In A Sour Market

Savvy investors used short-selling, options
and bonds to prosper in a rocky year

**"This has actually been the
best year I've had since the
financial crisis of 2008..."**

BY KATHLEEN DOLER
INVESTOR'S BUSINESS DAILY

This past year humbled even seasoned investors. Bonds went down with stocks, which goes against standard investing theory. And the value in value investing was hard to find. Dividend funds and stocks did better than most, but many still posted painful losses.

That's the whiny tune we've all heard for months — investing in 2022 was a hellscape.

Or was it?

If you used 2022's market volatility to your advantage — investing in energy stocks, trading options, short selling stocks, buying I Bonds and, late in the year, buying Treasury bonds —

In trading, as in life, perspective is everything.

"This has actually been the best year I've had since the financial crisis of 2008," said Don Kaufman, an active investor, short seller and chief market strategist at TheoTrade, a trading education site.

What's more, Kaufman added: "You could see this one coming from a mile away." The Fed started signaling that it would raise interest rates long before it did it, says Kaufman.

Investors have been sharing 2022 tales of triumph and woe with IBD. As this topsy-turvy investing year comes to a close, it's time to study survival strategies and glean lessons. Who did well and why?

And as the bear ran through some portfolios, eating away

**ULTIMA
ALERT**

Volatility Has Arrived... and Will Not Abate Soon

1. Inflation running RED HOT
2. FED pushing rates higher and contracting balance sheet
3. Strong Dollar exports inflation
4. Geopolitical Risks are Proliferating

GAME ON... EMBRACE the CHAOS !!

1. Markets got REAL in 2022
2. Stock picking and reddit boards are not going to cut it
3. You are going to need a strategy that
 - a) embraces the chaos and volatility
 - b) does not rely on directional bias
 - c) reduces risk while substantiating monthly returns

What are Ultima Trades?

1. Higher Volatility has resulted in significantly more options premium
– this makes options higher in price!
2. Ultima Trades are designed to “SELL” options premium while reducing risk...

Learning to SELL Options

- Many have heard through the grapevine “selling options” is the way to make money...
- Well, if you have experimented with selling options, you know full well there is definitely RISK involved.
- Today’s session will separate the myths from the real risks and the fact from the fiction in selling options premium.

Don't Panic, You Can Do This

- You may know NOTHING about options and that is ok for today's session!
- **News Flash** - Selling Premium can now be done in SMALL accounts under 5k and retirement accounts!
- For starters, look to grasp the big concepts regarding probability and risk.

So, let's dive right in...

The Many Facets of Selling Premium

- Selling Premium can be referred to in a number of different ways:
 - Selling Premium
 - Credit Spreads
 - Short Call/Put Spreads
 - Delta Neutral Trading
 - Selling Naked
- Selling Premium can be used to create both BULLISH or BEARISH positions but are generally considered MARKET NEUTRAL Spreads.

How Are Our Members Doing Year To Date?

Sep 27, 12:27 PM

Brian Jansma: doing awesome since Prof B got my head on straight „profits over 100 k so far

Sep 27, 12:29 PM

Éric: Up 27% YTD.

Sep 27, 12:30 PM

ZAY: Started my IRA in June, following the Theo Small methods, up %28, good stuff

Sep 27, 12:26 PM

SteveP: up for the year in accounts I'm trading

Sep 26, 3:43 PM

Maryann: Thanks to Theo - took my entire 401k to cash 18 months ago - YEAH!

How Are Our Members Doing Year To Date?

James Nov 09 11:06

Hey Don,

Thanks for the quick reply.

I am predominantly following you trading the Ultima and now the FlyBy and looking forward to the new Catapult strategy. You are a great teacher, as are the other Theo instructors, and I trade with confidence and success. (This year my account is up 30%.)

Thanks again for your feedback and continuing education.

Jim

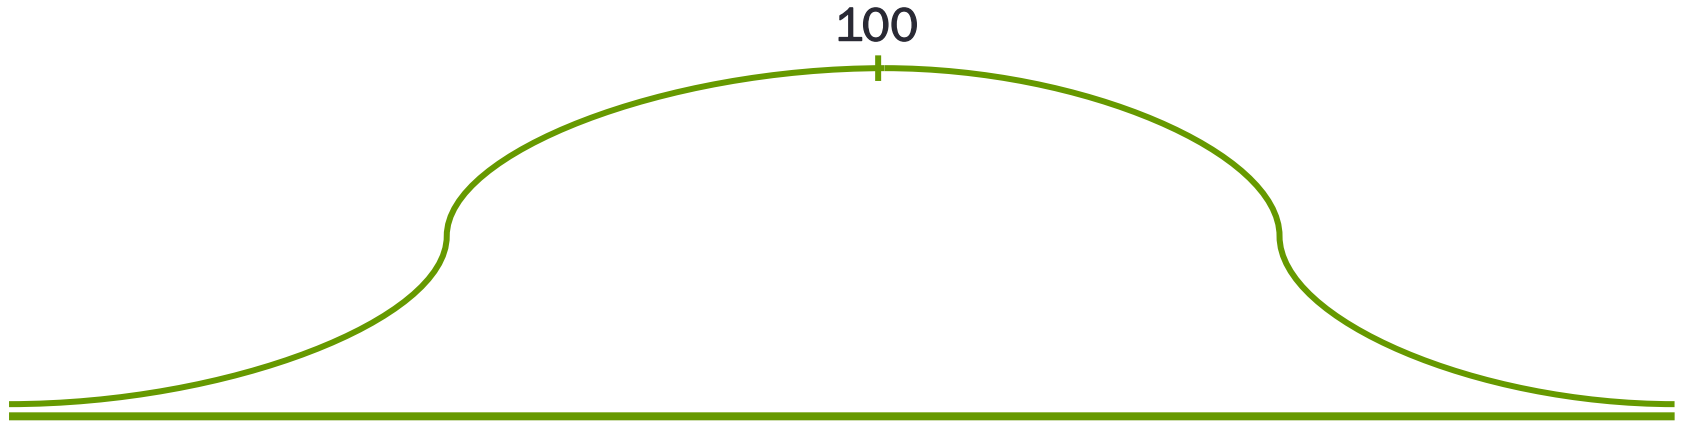

Probability and Profitability

- Your trading is based on probability.
- You and I can create trades all day long with a 90% probability of success and still lose money.
- Probability alone does NOT make you profitable. Remember that!

Markets Are a Trade Off

- Markets are a series of trade offs.
- Higher probability equals Higher RISK!
- You can be right 90% of the time and still lose money!
- So where can you find an edge?
- That's what you are here for, right?
- Good. Get ready because I'm about to show you something very important...

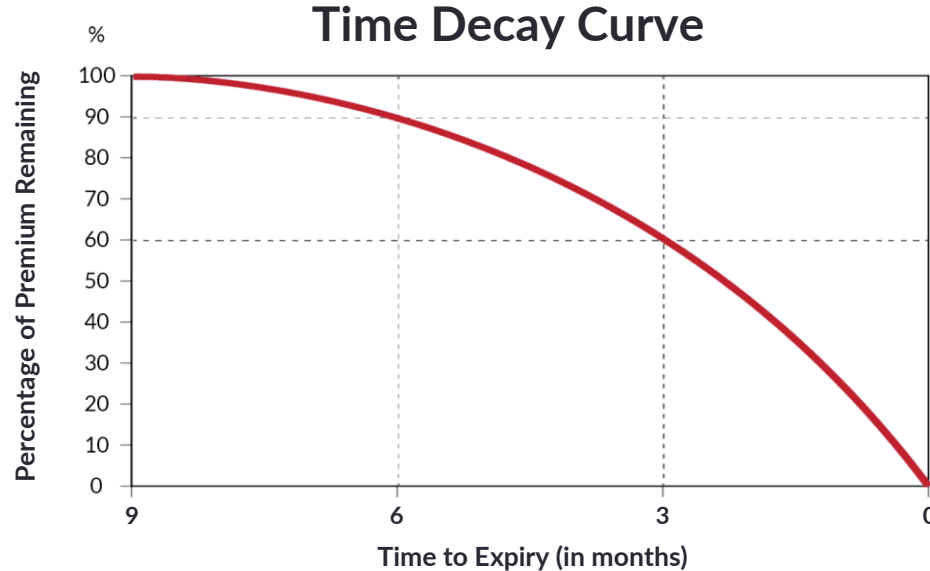

Discovering Probability and Premium Selling Tactics

Why SELL Options so Far Out in Time?

- You may have noticed in my example I sold options out a few months in duration?
- Typically, traders sell shorter dated options.
- However, therein lies why you are tuning into this webcast and why specific criteria is of such critical importance.
- **Criteria is what we do at TheoTRADE!**

Theta Decay - Feel the Burn!

- Let's review how options decay.
- Options decay at the square root of time.

90% Probability and the 10% Hammer

- 90% sounds great but 10% of the time the market “rips your face off”.
- When you trade high probability strategies and you’re wrong, you get hammered.
- And the market is just evil enough to allow you to make money 3 or 4 times, you increase contract size... then...
- Train wreck! Your losses exceed the gains on the previous 3 trades.
- I know it’s like I can see your account. Well for 15 years, I could 😊

I Can Fix It, I Know I Can Fix It...

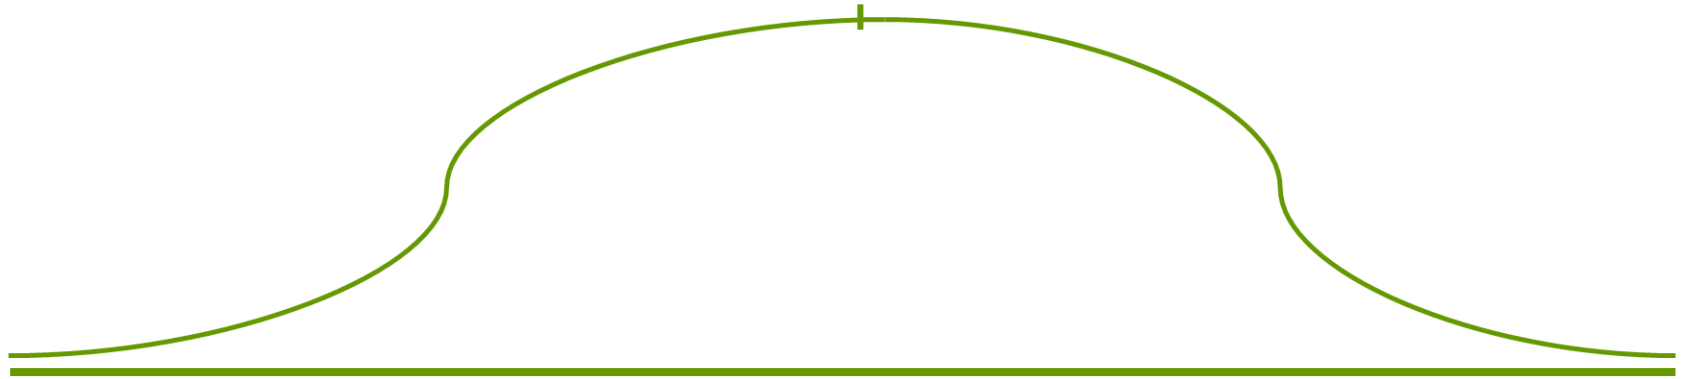

- Fix is a really dirty word in trading.
- 15 years in the brokerage business has made me a bit cynical regarding good trades gone bad.
- Any time you are fixing a trade you are adding more risk to an already losing trade and racking up transaction costs.
- Yes some “fixes” may work but the very notion of fixing a trade throws good capital after bad.

Yesterday's Trash

- Take a car drive it off a cliff and bring it to a body shop. The body shop will tell you the same thing about the car that I am going to say about your losing trade. It's a piece of junk, let it go.
- Do it right... learn how to correct good trades gone bad!

Selling Options Premium

This is why you want to Sell Premium...

1. Premium can now be sold in a small account even under 5k!
2. Produces positive theta decay
3. May enhance existing positions
4. Provides a high probability of success
5. Never need to buy or sell the stock!
6. You can be WRONG on Market Direction and still produce profitable trades!

YOU NEED THIS IN YOUR LIFE!

**Selling Premium can potentially bring in
consistent returns while minimizing your risk!**

Would You Like to Learn How to Sell Premium and Minimize Your Risks the Right Way?

Let's Discuss Criteria!

Here are a few LIVE TRADING examples...

Variations of ALL the following trades can be done with as little as 2k in a funded brokerage account and can be done inside retirement accounts!

No time? NO PROBLEM!

- Each and every trade shown today was displayed LIVE at TheoTRADE.
- The trade results we are showing are perfect for part timers...
- Selling Premium is hands-off and uses “set and forget” order types.
- Even a fraction of your time is enough to see results.
- **TheoTrade provides REAL-TIME TRADE ALERTS!**

What Better Time?

- You may not have time to learn a new skill however, follow our **REAL-TIME TRADE ALERTS**
- Selling Premium is a wonderful hedge for recessionary times!
- Markets could be in a bouts of volatility for years to come...

What Members are Saying:

Brian [redacted] Mar 16 08:41

Don,

Wow. I want to again say thank you for what you have taught me in the last two and a half years. I bought into what you taught about risk twist spreads and duration positions, and started to trade options almost a year ago. I missed out on the last of the market move up, but at the moment my IRA is up 14.8% for the year. What I have invested in TheoTrade has been SO worth the money!

Thank you!!!

Brian

Characteristics of Selling Ultima Premium

- The attributes of Selling High Probability Premium are undeniable!
- You never have to buy the stock.
- Risk is limited to precisely your comfort level.
- You need not use a stop order.
- You can vary time frames and minimize your risks
- Probability of profit is high.
- This is the PERFECT strategy to enhance one's stock portfolio.
- This is an excellent tool for those seeking returns to build an account.
- New Products allow for the sale of options in nearly ANY account size!

Building a Portfolio of Options...

- Do NOT let options intimidate you.
- **Let Alerts do the work for you!**
- Selling Premium can initially be done for minimal credits and minimal risk.

YOU can Sell Ultima Premium and Minimize Risk!

- You may not know options OR have limited experience in placing options trades.
- DO NOT let options intimidate you!
- **YOU NEED** these strategies for the foreseeable market future!
- We can show you HOW and WHEN to Sell Premium in a matter of a few hours.
- More importantly, TheoTrade now produces real-time trade alerts!

**This is what you need to know to successfully
Sell Ultima Premium for a Living...**

What underlying's, stocks, or indices make the best ultima premium selling candidates?

What volatility should I seek out?

What options Expiration do I select?

What should be the delta of the option I sell?

What options do I buy against my position?

How do I build the position?

Do I need a large amount of capital in my account to do this?

What is the right amount of risk for ME?

What are the percentage returns supposed to be?

How do I protect myself from market crashes when selling options?

Let me show you what we do here at
TheoTRADE...

TheoTRADE creates recipes in trading...

... and now real-time ALERTS when trade opportunities arise!

Trading is about Answering the 'What Ifs'

1. What might be a good stock or ETF candidate for you to sell premium?
2. What is the correct options expiration cycle to sell options in?
3. How much capital do you commit to generating premium?
4. What Strike Price Options do you sell?
5. What Strike Price Options do you buy?
6. How can I limit my risk?

TheoTrade Has Your Answers and Trade Alerts!

We build Recipes with definitive criteria, “checklists” for each strategy and each unique variable you will encounter.

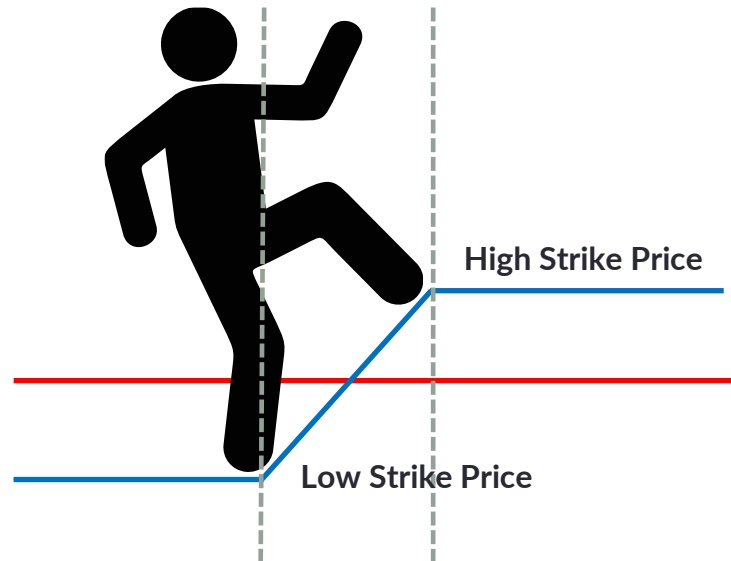

And we are now taking TheoTrade a step beyond... welcome to Ultima Trade Alerts!

TheoTrade is the Answer to Your Questions

- What is the right probability for your trade?
- How many options contracts do you trade in for your account size?
- When do you close your premium sale?
- What if the stock sells off big? Do you bail-out of the trade?
- What if the stock rallies massively?
- Can you fix a losing position?

How, When, Why, at What Price?

This is just the beginning of the many variables you will face while Selling Ultima Options For A Living...

You can read what Selling Ultima Premium is...

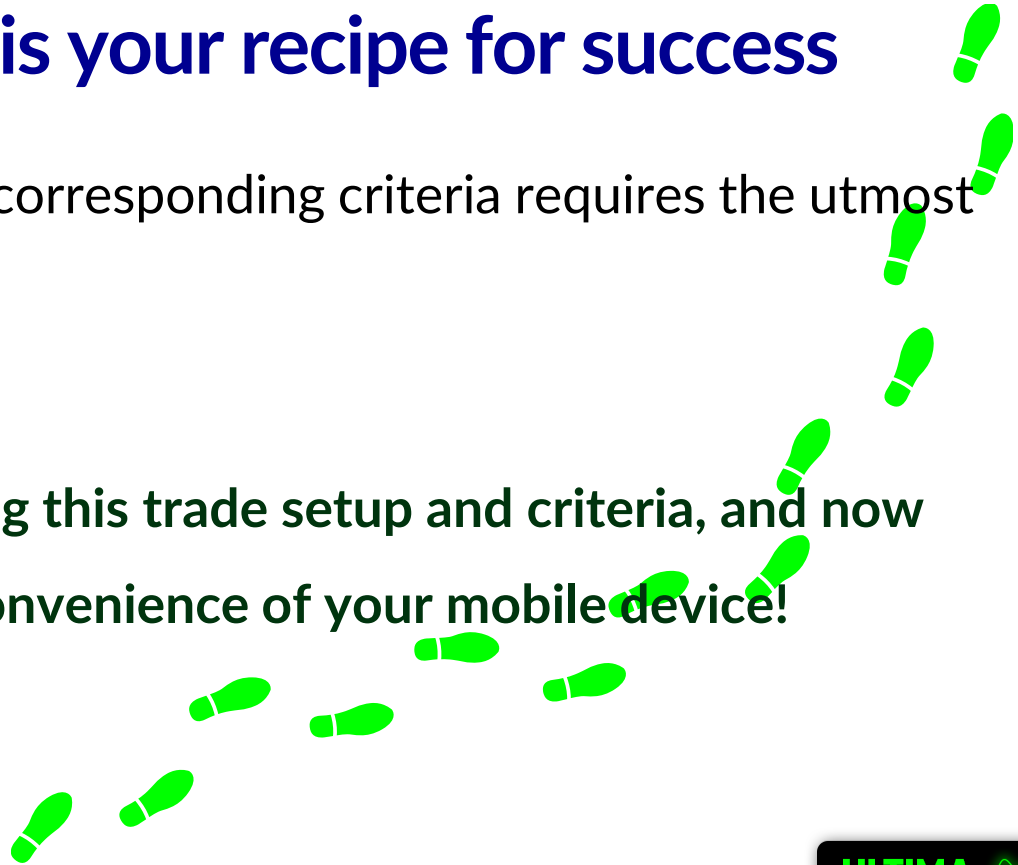

You might even know how to build a few trades...

But you need TheoTRADE's ALERTS!

- 20 plus years trading experience
- Access to client order flow for 15 years
- Viewed and studied millions of trading accounts
- Ran education for over 15 years at a firm with the largest options order in the industry!

Ultima Trade Alerts is your recipe for success

- The following strategy and corresponding criteria requires the utmost attention to detail.
- **We spent YEARS fine tuning this trade setup and criteria, and now real-time ALERTS on the convenience of your mobile device!**

The image features a smartphone tilted diagonally, displaying a trading application. The app's interface includes a top status bar with the time '8:15', a back arrow, a profile icon, and the number '31996'. Below this is a section titled 'Strategy: Ultra Trade Tech' with a sub-header 'Small Portfolios ARE CLOSING'. The main content area shows a table with columns for 'Date', 'Price', 'Volume', and 'Status'. The bottom dock contains icons for Camera, App Store, Apple Pay, and several social media or utility apps. A 'Text Message' input field is visible above the dock. The entire scene is set against a dark background with faint, glowing green lines and a bar chart, suggesting a financial or technological theme. A bright green glow emanates from the phone, highlighting the central text.

What Members are Saying:

John [REDACTED] Mar 30 16:49

My closed YTD profit from Ultima trades has paid for my yearly Theotrade subscription.

Nice!

Thank you,

John [REDACTED]

What Members are Saying:

Pat  Jan 11 06:11

H Don,

Thank you for your reply, it is very much appreciated.

Theotrade is the first educational trading service that I am actually making profit with and one which I see a pathway to retirement.

Regards

Pat

What Members are Saying:

Jeffrey [redacted] Yesterday 18:52

I want to thank you for all the different staff and point of views in trading. This year I did more of what works and less of what didn't. Thanks to your selling premium and IPS hedges. I took 12k to over 32k in 18 months I have been doing your method. Thanks again so much. And I look forward to your new ideas in the coming year.

Jeffrey [redacted]

What Members are Saying:

Robert

16 minutes ago

Don, recently re-upped with TheoTrade because of your Ultima Income Generator program. Based on the market changes taking place in options trading I was quickly convinced when I saw your presentation that Ultima is the best investment strategy on the market today.

I just wanted you to know about a special experience I had with Brian Aponte this past Friday. I was just getting started with your training videos and ran into a technical issue about 3:45 EST. I sent an email to your support group and with your closing time of 4:00 EST, I thought I would have to wait until Monday to get help.

At 4:10 my phone rang and it was Brian Aponte. He was extremely helpful and spent about 20 minutes with me to make sure my problem was fixed and gave me some key pointers on how to go through your training videos. This past Monday he voluntarily followed up with me with some key information to help me restart my account activity at TastyWorks. Brian is a great asset to your customer support service and I thought you would appreciate knowing the spirit of his commitment to your TheoTrade members.

I am looking forward to my future success with TheoTrade and Ultima Income Generator!!!

Bob

Your Questions Answered...

1. You need a laptop and an internet connection... we have everything you need to get started.
2. This is NOT a membership; we will NOT auto-renew or bill you again!
3. We are now providing TheoTHETA Weekly Video Updates so you can follow ALL the moves we make!
4. We will provide you access to TheoTRADE mobile where you can receive PUSH NOTIFICATIONS
5. Add your cell phone number when enrolling to receive trade ALERTS via text message .
6. You can email us at ANYTIME and receive a response within 24hours, including trade related questions!
7. Variations of trades available inside an IRA or retirement account and with as little as 2k within the account.
8. We at TheoTRADE can help you get approved for options trading at several major brokers.
9. Remember 20 Riskless trade spots are available!
10. Get results, take action, enroll for TheoTRADE NOW, there is NO risk to you!

Maryann Today 09:31

Because of Theo I closed my entire portfolio with profits!
Zero lost - I'm all cash!

Love it!

Thanks Don and your team!

Maryann

What Members are Saying:

Jeremiah [REDACTED] Mar 19 07:48

My first 4 trades following exactly the details in your Ultima class just closed out using GTC orders set right after getting into the trade. This paid for your class in less than a week! I am very thankful I subscribed to your services, keep up the good work. Thanks, Jeremiah [REDACTED]

What Members are Saying:

jeffr  Nov 10, 2020 09:33

Don,

I wanted to drop a quick email. I think the class is wonderful. I've been stretched each session, but not beyond my capability. After each session I watch the recording and do the homework. I feel each week that my knowledge of options trading is growing steadily and rapidly.

I obviously can't speak for my classmates, but it is going very well for me.

Thanks for the great instruction!

Jeff 

What Members are Saying:

Todd Sumrall Friday 18:59

Hi Don,

Don't know if you remember, but I emailed you a few weeks ago and told you my delta was + a couple thou or more. You told me to smash it or I was gonna be in trouble. I smashed it. You saved my account. I just want to thank you.

FYI, before Theo, I had no clue about portfolio delta.

Big hearty thanks to you and all of your team. My finances would of been a goner without your advice.

You can use this if you want,

Thank you very much

Todd Sumrall

What Members are Saying:

Thomas [REDACTED] Today 09:06

Don,

I'm up 80k since Jan 1, 2022. I'm very short so I'm having to hold my nose when the market rallies, otherwise, I'm just rolling puts down and out and closing in/out spreads at 1.55x. I'm still long energy. As soon as it stages a rally, I'm getting out. I've been selling puts to keep time from eroding value a la your strategy (whatever it's called) but have sold no puts before this big downturn because you cautioned us about it.

You guys are great!

Tom [REDACTED]

What Members are Saying:

steve  Sep 23 13:20

Don,

Your organization continues to blow me away with its insights, expertise, resources, personalities and structure.

I've learned so much and have been able to apply the knowledge to improve my trading exponentially.

Thank you and thanks to all your staff, for everything.

I'm grateful I found Theo Trade and grateful I had the sense to choose your organization as my 'mentor' over all the players in the marketplace.

And now you've added Blake Young whose style I enjoy immensely and am starting to adopt.

Don't know what else to say except that Theo Trade is awesome.

Your very satisfied customer,

Steve

Theo Trade is a one stop place for all things options. Their content is rich with something for every level of trader. There are hundreds of archived seminars coaching sessions and of course trading room access. The energy of the educators is palpableand the fact all content , save for a very few in person sessions, is included in the membership fee. Theo is worth the money invested.

Good evening DK,

As a multi-decade risk manager for one company I work for and owning two other businesses of my own, I must say that your perspective of portfolio risk management is exactly how I attempt to explain to those close to me with significant investments. Quantification via standard deviations of near and long term timeframes are critical considerations for responsible and successful endeavors regardless of underlying (market related or otherwise). It was refreshing to listen to your perspective on the same today. Sincerely appreciate your efforts.

Sincerest regards,

Nathan R

What Members are Saying:

BTW - you guys are rocking it!
Very impressed.

It's really refreshing to have you guys putting this together and sharing knowledge and not up selling everything and turning and burning your customer base. You've got a customer for life in me because of this approach - and I'm sure I'm not the only one!

David

Don is the most knowledgeable person I have ever heard in my over 50 years of stock investing. (and I have listened to many) His knowledge of how the markets work is like sitting next to a Finance Phd. Highly recommend learning what this man has to say!

I am very impressed with TheoTrade. I have studied under stock coaches, various strategy intellects, and different trading plans. I have not come across anything as good as what I am seeing here. The people at TheoTrade are very helpful and extremely knowledgeable. I am looking forward to this association for years to come!

What Members are Saying:

Thanks Don! I just finished my very first ever quarterly trading report and I grossed 21% ROI! Thanks for all the help! Looking forward to your intra-day course tomorrow morning!

RJ D

Fantastic service. I became self directed with my trading through the education I got here.

James S.

Thanks TheoTrade I'm up 4000.00 this week.

Aubrey W.

I just want you to let Don know how much I appreciate him and what he does....for the first time ever my account is in the "green."

J. Byrnes, Missouri

What Members are Saying:

The in/out spreads have been very helpful as I've been able to get on a hot streak and double my small account in 4 months via the use of in/out spreads... Using these in/out spreads on momentum trades is very helpful because I have such a clearly defined profit target and I don't have to worry about the market noise as much. It also seems like I give up far less slippage with this spread than I would if I bought calls/puts.

Dylan T.

Thanks heaps. Your explanation is very clear.

I'm so impressed that I received a response and that it was so comprehensive.

Usually this doesn't happen. I've asked lots of questions online and rarely get a response.

Thanks, and best wishes
Jennifer

By the way, I'm a new member of TheoTrade and I find it incredibly useful. Keep it up! Your presentations seem to add a few twists to what I've seen [elsewhere] and this is very useful. Another thing I like about TheoTrade is that you record all of what you present. Please keep recording all of your complete presentations.

WOOOOOOHOOOOO THANK YOU DON!!!

I am never sure of trades that are new to me that I structure myself. This is great to here..

Not to brag but this is due to you and your magnificent team I am up this year \$1,670,762 in profit!!!

Yes, I am going to pull a big hunk of this out of my and Wife's accounts plus I will give my granddaughter \$50,000 to work on her master's degree thanks to all of you!!!

I will let you know how this trade goes. I need to check the chart on that Japan ETF.

Thank You Again,

The  Family

What Members are Saying:

Theotrade topics and content are right on target. Really getting a lot out the Classes. My trading results are improving thanks to Theotrade. Keep up the great work Don.

Thanks,

Gary N

The archives of TheoTrade are a God Send. You can stop the tapes, reverse the tape, make notes and USE the information!
